

## Table of Contents

# AutoCAD Architecture 2008 Advanced

## Module 1: Styles and Advanced Object Tools

### Section 1: General Style Information

- Using the Style Manager
- General Style Properties
- Working With Materials
- Classifications
- Display Properties
- Self Check: General Style Information

### Section 2: Wall Tools

- Creating Wall Modifiers
- Changing Wall Modifiers
- Miscellaneous Wall Tools
- Complex Wall Shapes
- Self Check: Wall Tools

### Section 3: Advanced Sections and Elevations

- Horizontal and Vertical Sections
- Subdivisions
- Adding and Modifying Linework
- Modifying Material Boundaries
- Self Check: Advanced Sections and Elevations

## Module 2: Drawing Management

### Section 1: Introduction to Drawing Management

- Drawing Management Concepts
- Creating a New Project
- Self Check: Introduction to Drawing Management

### Section 2: Drawings in Projects

- Setting Up Divisions and Levels
- Adding Categories
- Constructs
- Elements
- Views
- Sheets
- Self Check: Drawings in Projects

## Module 3: Massing Studies and Space Planning

### Section 1: Massing Studies

- Creating Mass Elements Using Predefined Shapes
- Creating Complex Mass Elements
- Modifying Mass Elements
- Mass Element Styles
- Adding Mass Elements to Groups
- Using the Model Explorer
- Converting Mass Elements to Walls
- Self Check: Massing Studies

### Section 2: Space Planning

- Space Planning
- Modifying Spaces
- Grouping Spaces into Zones
- Evaluating Space Information
- Display Themes and Spaces
- Self Check: Space Planning

## Module 4: Creating Object Styles

### Section 1: Architectural Object Styles

- Creating Wall Styles
- Creating Door Styles
- Creating Window Styles
- Creating Space Styles
- Self Check: Creating Basic Styles

### Section 2: Annotation Styles

- Creating Schedule Table Styles
- Creating AEC Dimension Styles
- Using the AEC Dimension Style Wizard
- Creating Display Theme Styles
- Self Check: Annotation Styles

## Module 5: Curtain Wall Styles

### Section 1: Curtain Wall Editing Tools

- Parts of a Curtain Wall
- Modifying Curtain Walls
- Self Check: Curtain Wall Editing Tools

## Section 2: Curtain Wall Styles

- Creating Simple Curtain Wall Styles
- Linework in Curtain Wall Styles
- Advanced Options for Curtain Walls
- Creating Door/Window Assembly Styles
- Self Check: Curtain Wall Styles

## Module 6: Customizing Content and Project Standards

### Section 1: Creating Custom Content

- Customizing Tool Palettes
- Using the Content Browser
- Creating Multi-View Blocks
- Creating Custom Content
- Self Check: Creating Custom Content

### Section 2: Project Standards

- Project Standards Overview
- Creating Project Standards
- Checking Project Standards
- Self Check: Project Standards

## Module 7: Customizing Layers and the Display System

### Section 1: Customizing Layer Properties

- Selecting a Layer Standard
- Using Layer Key Overrides
- Remapping Objects to Layer Keys
- Creating Layer Standards
- Using the Layer Manager
- Self Check: Customizing Layer Properties

### Section 2: Customizing the Display System

- Display Control Basics
- Changing Object Display Properties
- Setting Up New Display Controls
- Display Representations
- Display Representation Sets
- Display Configurations
- Self Check: Customizing the Display System
