

## Table of Contents

# AutoCAD Architecture 2008 Fundamentals

## Module 1: Floor Plans

### Section 1: Introduction to AutoCAD Architecture

- Starting AutoCAD Architecture
- Understanding AutoCAD Architecture
- General Drawing Tools
- Viewing in 3D

### Section 2: Floor Plans

- Adding Walls
- Modifying Walls
- Adding Wall Openings
- Modifying Wall Openings

### Section 3: Curtain Walls

- Adding Curtain Walls
- Modifying Curtain Walls

## Module 2: Specialty Objects

### Section 1: Structural Design

- Creating Column Grids and Columns
- Modifying Column Grids
- Annotating Column Grids
- Working with Structural Members

### Section 2: Reflected Ceiling Plans

- Creating Ceiling Grids
- Modifying Ceiling Grids

### Section 3: Stairs and Railings

- Adding Stairs
- Modifying Stairs
- Adding Railings
- Modifying Railings

## Module 3: Floors and Roofs

### Section 1: Floors

- Creating Floor Slabs
- Modifying Floor Slabs
- Editing Slabs Using Slab Tools

### Section 2: Roofs

- Creating Roofs
- Modifying Roofs
- Working with Roof Slabs
- Modifying Roof Slabs
- Roof Slab Tools

#### **Module 4: Project Management and Design Content**

##### Section 1: Introduction to Drawing Management

- Project Concepts
- Using the Project Navigator

##### Section 2: Fixtures, Furniture, and Equipment

- Inserting Blocks Using DesignCenter
- Adding Blocks to Tool Palettes

##### Section 3: Creating Details

- Creating Details from Tool Palettes
- Using the Detail Component Manager

#### **Module 5: Building Model Views**

##### Section 1: Details, Elevations, and Sections

- Boundary and Detail Callouts
- Elevations and Building Sections
- Modifying Callout Objects
- Live Sections

##### Section 2: Basic Visualization

- The Visualization Workspace
- Creating Precise Perspectives
- Basic Animation

#### **Module 6: Documentation**

##### Section 1: Annotation

- Drawing Scale for Annotation
- Adding Text and Keynotes
- AEC Dimensioning
- Other Annotation Tools

##### Section 2: Tags and Schedules

- Adding Door and Window Tags
- Editing Tag Data
- Creating Schedules
- Editing Schedules
