AutoCAD LT 2007 Level 1

Essentials:

Module 1: Creating a Simple Drawing

Section 1: Getting Started with AutoCAD LT

- Starting AutoCAD LT
- AutoCAD LT's Screen Layout
- Command Prompts and the Keyboard
- Using Your Pointing Device
- Opening an Existing Drawing File
- AutoCAD LT's Cartesian Workspace
- Self Check: Getting Started with AutoCAD LT

Section 2: Basic Drawing & Editing Commands

- Drawing Lines
- Erasing Objects
- Drawing Lines with Polar Tracking
- Drawing Rectangles
- Drawing Circles
- Viewing Your Drawing
- Undoing and Redoing Actions
- Saving Your Work
- Self Check: Basic Drawing & Editing Commands
- Project Practices: Creating a Simple Drawing

Module 2: Making Your Drawings More Precise

Section 1: Drawing Precision in AutoCAD LT

- Using Object Snap
- Object Snap Overrides
- Polar Tracking Settings
- Object Snap Tracking
- Drawing with SNAP and GRID
- Self Check: Drawing Precision

Section 2: Making Changes in Your Drawing

- Selecting Objects for Editing
- Moving Objects
- Copying Objects
- Rotating Objects
- Scaling Objects
- Self Check: Making Changes to Your Drawing
- Project Practices: Making Your Drawings More Precise

Module 3: Drawing Organization and Information

Section 1: Organizing Your Drawing with Layers

- Creating New Drawings with Templates
- What are Layers?
- Layer States
- Changing an Object's Layer
- Using Extra Layer Tools
- Self Check: Organizing Your Drawing with Layers

Section 2: Two More Object Types

- Drawing Arcs
- Drawing Polylines
- Converting Polylines to Lines & Arcs
- Converting Lines & Arcs to Polylines
- Self Check: Two More Object Types

Section 3: Getting Information from Your Drawing

- Measuring a Distance
- Measuring an Area
- Information about Objects
- Self Check: Getting Information from Your Drawing
- Project Practices: Drawing Organization and Information

Module 4: Creating More Complex Objects

Section 1: Advanced Editing Commands

- Trim
- Extend
- Stretch
- Fillet
- Chamfer
- Self Check: Advanced Editing Commands

Section 2: Duplication Commands

- Offsetting Objects
- Mirroring Objects
- Creating Arrays of Objects
- Self Check: Duplication Commands

Section 3: Inserting Blocks

- What are Blocks?
- Inserting Blocks from Tool Palettes
- Inserting Blocks with Insert
- Self Check: Inserting Blocks
- Project Practices: Creating More Complex Objects

Module 5: Preparing to Print

Section 1: Setting Up a Layout

- Printing Concepts
- Working in Layouts
- Creating a New Layout
- Copying a Layout
- Guidelines for Layouts
- Self Check: Setting Up a Layout

Section 2: Printing Your Drawing

- Plot Command
- Plot Preview
- Self Check: Printing Your Drawing
- Project Practices: Preparing to Print

Module 6: Annotating Your Drawing

Section 1: Text

- Adding Multiline Text
- Formatting Multiline Text
- Editing Multiline Text
- Self Check: Text

Section 2: Hatching

- Hatching
- Editing the Hatch Pattern
- Self Check: Hatching

Section 3: Adding Dimensions

- Dimensioning Concepts
- Adding Single Dimensions
- Other Dimension Tools
- Adding Leaders
- Editing Dimensions
- Selecting a Dimension Style
- Self Check: Adding Dimensions
- Project Practices: Annotating Your Drawing

Skills Assessment

Beyond the Basics:

Module 1: Productivity Tools

Section 1: Selection Sets

- Advanced Object Selection
- Quick Select
- Editing with Grips
- Self Check: Selection Sets

Section 2: Accurate Positioning

- Coordinate Entry
- Locating Points with Tracking
- Construction Lines
- Placing Reference Points
- Self Check: Accurate Positioning
- Project Practices: Productivity Tools

Module 2: Creating and Organizing Blocks

Section 1: Creating Blocks

- Defining a Block
- Creating Global Blocks
- Editing Blocks
- Removing Unused Elements
- Self Check: Creating Blocks

Section 2: Blocks in Tool Palettes

- Adding Blocks to Tool Palettes
- Modifying Tool Properties in Tool Palettes
- Self Check: Blocks in Tool Palettes
- Project Practices: Creating and Organizing Blocks

Module 3: Drawing Setup and Utilities

Section 1: Creating Templates

- Why Use Templates
- Controlling Units Display
- Creating New Layers
- Creating Text Styles
- Creating Dimension Styles
- Adding Standard Layouts to Templates
- Saving Templates
- Self Check: Creating Templates

Section 2: Advanced Viewing Tools

- Additional Zoom Options
- Creating & Using Named Views
- Creating Model Space Viewports
- Self Check: Advanced Viewing Tools
- Project Practices: Drawing Setup and Utilities

Module 4: Drawing Projects

- D-sized Titleblock (24x36)
- Mechanical Project: Drill Press Base
- Architectural Project: Office Tower
- P&ID Project: Oil Lubrication System
- Civil Project: Warehouse Site

Appendix: Optional Topics

- Break and Join
- Polygons
- Donuts
- Ellipses
- Single-Line Text
- Other Text Tool
