Civil 3D 2008 Introduction for Site Grading Plans

Exercise 1: The AutoCAD Civil 3D Environment

- AutoCAD Civil 3D Interface
- Object Base Layer
- Object Component Layers

Exercise 2: Toolspace

- Toolspace
- Prospector Tab Overview
- Settings Tab Overview
- Survey Tab Overview
- Toolbox Tab Overview
- Point Description Keys Overview
- Point Groups Overview

Exercise 3: Settings and Defaults

- Create a New Drawing
- Drawing Settings
- Label Style Defaults
- Edit Feature Settings
- Edit Command Settings

Exercise 4: Object Styles

- Overview of Styles
- Create New Point Styles
- Create Description Keys
- Point Command Settings
- Create Point Groups
- Create Points
- Create New Surface Styles
- Create New Group Plot Style
- Create a Drawing Template

Exercise 5: Build and Edit Surfaces

- Start a New Drawing
- Import a Coordinate Point File
- Create a New Surface
- Create a Point Group
- Create a TIN Boundary
- Point Display
- Create Breaklines
- Add Surface Data
- Editing Surfaces
- Surface Display
- Add Contour Labels
- Contour Label Style

Exercise 6: Sharing AutoCAD Civil 3D Objects

- Export to LandXML
- Data Shortcuts Overview
- Create Data Shortcuts

- Export Data Shortcuts
- Import Data Shortcuts
- Create a Surface Reference
- Synchronizing References
- Import LandXML

Exercise 7: Building Pad Design

- Import Site Layout
- Create Feature Lines from Objects
- Grading to a Surface
- Editing the Grading
- Creating an Automatic Surface from the Grading
- Grading Volumes
- Surface Volumes

Exercise 8: Parking Lot Design

- Create Surface Points
- Draw Feature Lines
- Stepped Offsets
- Create a Grading Group
- Create a Surface
- Add Feature Lines to a Surface

Exercise 9: Pond Design

- Multiple Grading Objects
- Grade to Relative Elevation
- Grade to Distance
- Grade to Surface
- Create Infill
- Surface Creation
- Grading Volumes
- Balance Volumes
- Quick Profile

Exercise 10: Lagoon Design

- Convert Polylines to Feature Lines
- Aeration Pond Feature Lines
- Lagoon Feature Lines
- Create the Design Surface
- Calculating Earthwork Volumes
- Create an Alignment
- Create a Profile View
- Create Outfall Structure and Piping

Exercise 11: Combining Surfaces

- Final Grading Surface
- Paste Surfaces

Appendix

- Grading Tools
- Grading Editing Tools
- Grading Utilities
- Feature Lines
