## Contents

Preface .......................................................................................................................... iii

In this Guide ................................................................................................................ vii

Practice Files .............................................................................................................. xi

### Chapter 1: 3D Annotations in Autodesk Inventor .................................................. 1-1

1.1 Introduction to Annotations .................................................................................. 1-2

1.2 General MBD Overview ..................................................................................... 1-3
   - Design Methodologies ...................................................................................... 1-3
   - Present and Future Methods ......................................................................... 1-4

1.3 The Annotate Interface ....................................................................................... 1-6
   - Model Browser ............................................................................................... 1-6
   - Context Menus ............................................................................................... 1-7
   - Annotation Selection ...................................................................................... 1-7

1.4 Active Standard .................................................................................................. 1-8

Practice 1a Introduction to the Annotation Interface .............................................. 1-10

Chapter Review Questions ......................................................................................... 1-19

Command Summary ................................................................................................. 1-21

### Chapter 2: 3D Annotations .................................................................................... 2-1

2.1 Introduction .......................................................................................................... 2-2

2.2 Dimensional Annotations ................................................................................... 2-3
   - Promoting Dimensional Annotations .......................................................... 2-4
   - Creating Dimensional Annotations .............................................................. 2-5
   - Editing Dimensional Annotations ................................................................ 2-8

2.3 Hole/Thread Note Annotations .......................................................................... 2-9
   - Editing Hole/Thread Note Annotations ......................................................... 2-12

2.4 Surface Texture Annotations .............................................................................. 2-14
   - Editing Surface Texture Annotations ............................................................ 2-17
