ASCENT - Center for Technical Knowledge is a division of Rand Worldwide, Inc., providing custom
developed knowledge products and services for leading engineering software applications. ASCENT is
focused on specializing in the creation of education programs that incorporate the best of classroom
learning and technology-based training offerings.

We welcome any comments you may have regarding this student guide, or any of our products. To contact
us please email: feedback@ASCENTed.com.

General Disclaimer:
Notwithstanding any language to the contrary, nothing contained herein constitutes nor is intended to constitute an offer,
inducement, promise, or contract of any kind. The data contained herein is for informational purposes only and is not
represented to be error free. ASCENT, its agents and employees, expressly disclaim any liability for any damages, losses
or other expenses arising in connection with the use of its materials or in connection with any failure of performance, error,
omission even if ASCENT, or its representatives, are advised of the possibility of such damages, losses or other
expenses. No consequential damages can be sought against ASCENT or Rand Worldwide, Inc. for the use of these
materials by any third parties or for any direct or indirect result of that use.

The information contained herein is intended to be of general interest to you and is provided "as is", and it does not
address the circumstances of any particular individual or entity. Nothing herein constitutes professional advice, nor does
it constitute a comprehensive or complete statement of the issues discussed thereto. ASCENT does not warrant that the
document or information will be error free or will meet any particular criteria of performance or quality. In particular (but
without limitation) information may be rendered inaccurate by changes made to the subject of the materials (i.e. applicable
software), Rand Worldwide, Inc. specifically disclaims any warranty, either expressed or implied, including the warranty
of fitness for a particular purpose.
## Chapter 3: Working with Imported Surfaces

### 3.1 Importing Surfaces

### 3.2 Repairing Imported Surfaces

### Practice 3a Repairing Imported Data

### Practice 3b Manipulating Imported Surfaces

### Chapter Review Questions

### Command Summary

## Chapter 4: Importing AutoCAD Data

### 4.1 Opening AutoCAD Files

#### Opening DWG Files

#### Importing DWG Files

### 4.2 Working with other Autodesk Product Files

#### Mechanical Desktop

#### Alias Studio Files

#### Autodesk Revit Files

#### 3ds Max Design Files

#### Practice 4a Import an AutoCAD DWG File into Autodesk Inventor

#### Practice 4b Open AutoCAD DWG Data to Create a Solid

### Chapter Review Questions

### Command Summary

## Chapter 5: Working with DWG Underlays

### 5.1 DWG File Underlays

#### Importing a DWG File as an Underlay

#### Controlling Layer Visibility

#### Moving an Underlay

#### Cropping an Underlay

#### Using an Underlay to Create Geometry

#### Practice 5a Import Associative DWG Data into a Part File

#### Practice 5b Associative DWG Layout

### Chapter Review Questions

### Command Summary
